Getting Started

Module Overview

Module Overview

The SUNAT EDI module generates and sends Comprobantes de Pago Electrónicos (CPE) in compliance with SUNAT regulations.

Supported document types

- Factura Electrónica (01)
- Boleta de Venta Electrónica (03)
- Nota de Crédito (07)
- Nota de Débito (08)
- Guía de Remisión Remitente (09)

Electronic Documents

Generating an Electronic Invoice

Generating an Electronic Invoice

Confirm a customer invoice as usual. The EDI module automatically generates the XML, signs it, and submits it to your configured OSE or directly to SOL.

Checking the CDR

Once sent, the **CDR status** field will show *Accepted* or the SUNAT error code for rejected documents.
